

1294. Ó Cróinín (Dáibhí): Mo-Sinnu Moccu Min and the Computus of Bangor.
In *Peritia* 1 (1982), pp. 281–295.

Edition and translation of a note on an intercalated slip in Würzburg MS M. p. th. f. 61 (incomplete in *Thes* ii 285). The *computus* which Mo-Sinnu (ob. 610) ‘learned by heart from a certain learned Greek’, and which Mo-Chuoróc maccu Neth Sémon wrote down, was a *computus digitorum* (a treatise on finger-reckoning), or *Graecorum computus*, not a method for reckoning time (viz. the Dionysiac cycle).
