

201. Lamb (William): A diachronic account of Gaelic news-speak: the development and expansion of a register.

*In* SGS 19 (1999), pp. 141–171.

Includes a short history of Scottish Gaelic radio broadcasting. Linguistic features of News-speak discussed include the lexicon, borrowing, calques, neologism and semantic expansion, glossing, the genitive, orthography, syntax (noun phrase construction and passive forms), dialects, accents, and the ‘intonational full-stop’.
