

2590. Hamp (Eric P.): Celtic **dām*- and vṛddhi and δᾶμος.

In ZCP 36 (1978), pp. 5–12.

Derives OIr. *dám* from PIE **dom-u-s*, arguing that the long vocalism has been transferred from the strong cases of a hypothetical CC root-noun from PIE **dom*- and therefore excluding the possibility of vṛddhi derivation. Cf. E. CAMPANILE, *in* BBCS 26/3 (1975), pp. 305-306.
