

2800. Gamkrelidze (Thomas V.): Celtic consonantism in the light of the Glottalic Theory.

*In* ZCP 49–50 (1997), pp. 213–218.

Explains the Celtic voiced series as the result of the merger of the PIE glottalized and voiced series, and includes an account in glottalistic terms of the development of the labio-velars.
