

3442. Borsje (Jacqueline): The movement of water as symbolised by monsters in early Irish texts.

*In* Peritia 11 (1997), pp. 153–170.

Discusses the development of the motif of sea-monsters that move water, arguing that, although there are early references to the classical Charybdis in Hiberno-Latin texts, the connection of the two concepts is first seen in the *muidris* of *Echtra Fergusa maic Léti*.
