

3690. Arbuthnot (Sharon J.): Some accretions to genealogical material in a manuscript boxed with the Book of Leinster.

In ZCP 55 (2006), pp. 57–67.

Studies the relationship between the Laigin genealogies in the additional material stored together with MS TCD H 2. 18 (= sections Q, R and S as ed. by R. ATKINSON 1880 [Best¹, p. 65]) and the textual tradition of *Cóir anmann*, arguing that the Laigin genealogies were expanded using the longest version of *Cóir anmann*, which in turn had as a source a genealogical treatise similar to the 12th c. texts. Includes a transcription of the corresponding passages.
