

7067. McLaughlin (Roisin): Fénius Farsaid and the alphabets.

*In Ériu* 59 (2009), pp. 1–24.

Discusses evidence for an alternative account of Fénius's role in the invention of the alphabet characterized by Isidorian influence, and suggests that Fénius's increased prominence in the legend originates in the Middle Irish commentary tradition on *Auraicept na n-éces*.
